MO-IT107: Information Management	
Week No.	11
Topic:	Data Flow Diagrams
Worksheet No. 6	Data Flow Diagram of MotorPH Payroll System

Project Manager:	Jether Daniel A. Torres
Business Analyst:	
Database Designer:	
Program and Year Level:	BSIT - Software Development; A.Y. 2024 - 2025

A data flow diagram is an effective tool for simulating and understanding the movement of data inside a system or process. It plays a crucial role in the analysis, design, and documentation of systems, assisting in ensuring the swift and correct processing and sharing of data. Your task this week is to create a data flow diagram for the MotorPH Payroll System Database. To carry out this activity, follow the steps below:

Instructions:

1. Access the following business information:
    a. Business Requirement Specification Document for Payroll System
    b. MotorPH Existing Business Processes - Payroll
2. Read and examine the information found within the materials.
3. In DrawIO, make a data flow diagram that illustrates how the data flows in the MotorPH payroll system using the Gene & Sarson notation style.
    a. Create the data flow diagram at least until Level 2.
4. Once completed, insert a snapshot of the diagram, fill in the required information in the template provided below, and delete this section prior to submission.
